EVMS Fundamentals

CBTW – EVMS Services is pleased to offer our Earned Value training course to government contractors, agencies, and students worldwide. This learning experience combines slide presentation with a visual instructor just as you would have in a classroom environment. Every year this course economically provides beginner to intermediate EVMS training to thousands of personnel who wish to quickly become familiar with EVMS principles. The course is delivered from our online Learning Center, so there is no software to install and no instructors to schedule.

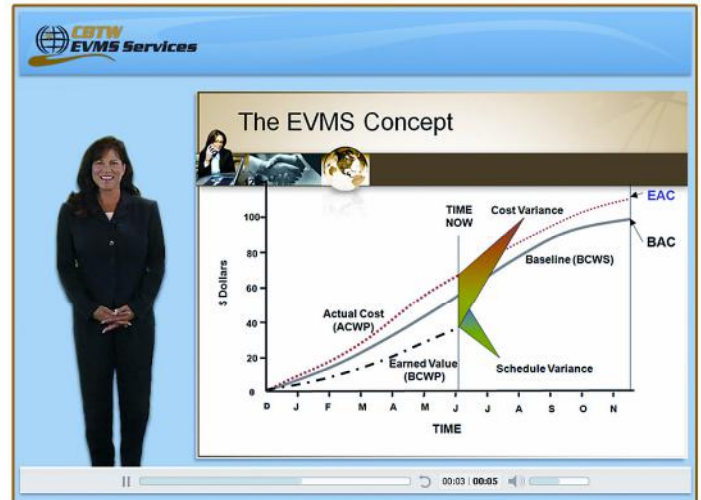

Course Description and Outline

The EVMS Fundamentals course contains 37 narrated lessons. This course, is equivalent to two days of instructor-led training, but can be taken independently in 6 to 8 hours.

- EVMS Overview: Terminology and Definitions
- Organizations Within Earned Value Environments
- Work Breakdown Structure and Control Accounts
- Performance Measurement Baseline
- Project Schedules (IMP & IMS)
- Cost and Schedule Integration
- Incorporating Actual Costs
- Earned Value Methodologies
- Estimates To Complete
- Metrics, Variance Analysis, and Reporting
- EVMS Guidelines, Compliance, and Deliverables

Benefits of EVMS Fundamentals

- Your entire staff will maintain a standard level of EVMS understanding, so that you can maximize the benefits of your earned value management system.
- Your staff can learn in small groups, or independently, studying at their desktop, at their own pace.
- The course has bookmarking capability which allows students to easily return to wherever they left off.
- Your Training Administrator has 24/7 access to student progress and test scores.

Testing

Most lessons have a short ungraded quiz at the end of the lesson to enhance the learning experience. At the conclusion of the course, students take a graded test. Students with passing scores immediately receive a signed completion certificate. Your company's training administrator determines pass/fail thresholds and other company specific parameters.

On-Demand Learning

Our interactive training will give you the flexibility to train your staff without the concerns of scheduling instructors, rooms, equipment, and personnel. The benefits are significant:

- Economical Training Cost per Student
- Reduced Technical Resources Required
- As Needed, Continual Access to Learning

About Us . . .

CBTW personnel have been providing EVMS training and professional services to the government contracting industry for over 25 years. We've worked with all of the leading defense contractors and agencies to deliver world class EVMS training and implementation support. CBTW was the first vendor to deliver cost effective, fully narrated, web delivered earned value training for this industry.
